

UCAB - Features Documentation

Project Name

UCAB – Cab Booking System

Technology Stack

MERN Stack (MongoDB, Express.js, React.js, Node.js)

Features

The UCAB Cab Booking System provides multiple features that make cab booking simple, secure, and efficient for both users and drivers.

1. User and Driver Authentication (Login/Signup)

The system provides secure authentication for both users and drivers.

User Authentication

- User Registration
- User Login
- Password Encryption using bcrypt
- JWT-based Authentication
- Profile Management

Driver Authentication

- Driver Registration
- Driver Login
- Driver Verification
- Secure Session Management

Benefits

- Secure access to the application
 - Protected user information
 - Role-based authorization
-

2. Cab Type Selection

Users can choose from different cab categories according to their travel requirements.

Available Cab Types

- Mini
- Sedan
- SUV
- Premium Cab

Benefits

- Flexible ride options
 - Fare comparison
 - Better travel experience
-

3. Ride History and Receipt Download

The application maintains complete records of all rides.

Features

- View Previous Rides
- Ride Details
- Driver Information
- Fare Information
- Download Receipt
- Payment History

Benefits

- Easy expense tracking
 - Travel record maintenance
 - Digital receipt storage
-

4. Scheduled Bookings

Users can book rides in advance.

Features

- Select Future Date
- Choose Pickup Time
- Confirm Booking
- Receive Confirmation Notification

Benefits

- Better planning
 - Ride availability assurance
 - Convenient travel scheduling
-

5. Booking Cancellation and Rescheduling

Users can modify their bookings whenever necessary.

Cancellation Features

- Cancel Upcoming Rides
- Receive Cancellation Confirmation

Rescheduling Features

- Change Pickup Time
- Change Destination
- Reassign Available Driver

Benefits

- Flexible booking management
 - Improved user convenience
 - Better customer satisfaction
-

Feature Workflow

User Login/Register

Select Cab Type

Book Ride

Track Ride

Payment

Download Receipt

View Ride History

Cancel / Reschedule Booking (Optional)

Outcome

The UCAB Features Module provides secure authentication, multiple cab options, ride management, booking flexibility, and digital record maintenance, ensuring a smooth and user-friendly cab booking experience.
