

Ideation Phase

Empathize & Discover – Empathy Map Canvas

Date	19 July 2026
Team ID	XXXX XXXX XXXX
Project Name	Ucab – Smart Cab Booking Application
Maximum Marks	4 Marks

Says

“I need a cab right now.” “Why is the fare not shown upfront?” “Is my driver actually close?”

Thinks

“I hope I'm not late.” “I wish I could just see nearby cabs instantly.” “Will my saved card work automatically?”

Does

Opens multiple apps to compare fares, calls for a cab, waits at the roadside, manually pays the driver in cash.

Feels

Frustrated by delays, uneasy about safety and fare surprises, relieved once a trustworthy cab arrives.

Pains

- Unclear fare estimates before booking
- No live tracking of the assigned cab
- Manual, non-automatic payment
- No record of past rides

Gains

- Instant nearby-cab discovery with fare & ETA
- Live map tracking of the ride
- Automatic payment through saved methods

- Simple booking history and receipts
